A Corrigendum on

Immunization of Experimental Dogs With Salivary Proteins From *Lutzomyia longipalpis*, Using DNA and Recombinant Canarypox Virus Induces Immune Responses Consistent With Protection Against *Leishmania infantum*

by Abbehusen, M. M. C., Cunha, J., Suarez, M. S., Teixeira, C., Almeida, V. d. A., Pereira, L. d. S., et al. (2018). *Front. Immunol.* 9:2558. doi: 10.3389/fimmu.2018.02558

“Patricia Sampaio Tavares Veras” was not included as an author in the published article. The corrected **Author Contributions** statement appears below.

“Conceived and designed the experiments: MA, CT, and CB. Performed the experiments: MA, JC, VA, LdS, MB, MS, and CT. Analysed the data: MA, BA, LF, PV, SK, and CB. Contributed reagents, materials, analysis tools: JV, LF, LG-S, MSS, DMF, BA, CB, and PB. Wrote the paper: MA, PV, CB, and BA.”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
