Instituto Oswaldo Cruz, Departamento de Helminologia, Caixa Postal 926, 20001 Rio de Janeiro, RJ, Brasil

Two different species of the genus *Procamallanus* have been proposed with the same name: *P. (P.) petterae* Moravec & Sey, 1988 (*Vestník Československé Společnosti Zoologické*, 52: 128-148), issued in May, 1988 and *P. petterae* Kohn & Fernandes, 1988 (*Memórias do Instituto Oswaldo Cruz*, 83 (3): 293-298), in September, 1988.

In accordance with the International Code of Zoological Nomenclature, a new name *Procamallanus annipetterae* is proposed for *Procamallanus petterae* Kohn & Fernandes, 1988, maintaining the honor to Dr Annie J. Petter from "Muséum National d'Histoire Naturelle" (Paris), for her contribution to the knowledge of Camallanidae.

Research fellows "Conselho Nacional de Desenvolvimento Científico e Tecnológico (CNPq)", Brasil.
